Spring 2024

Item Number 101

LOG IN SScreen

Insert user in Username label

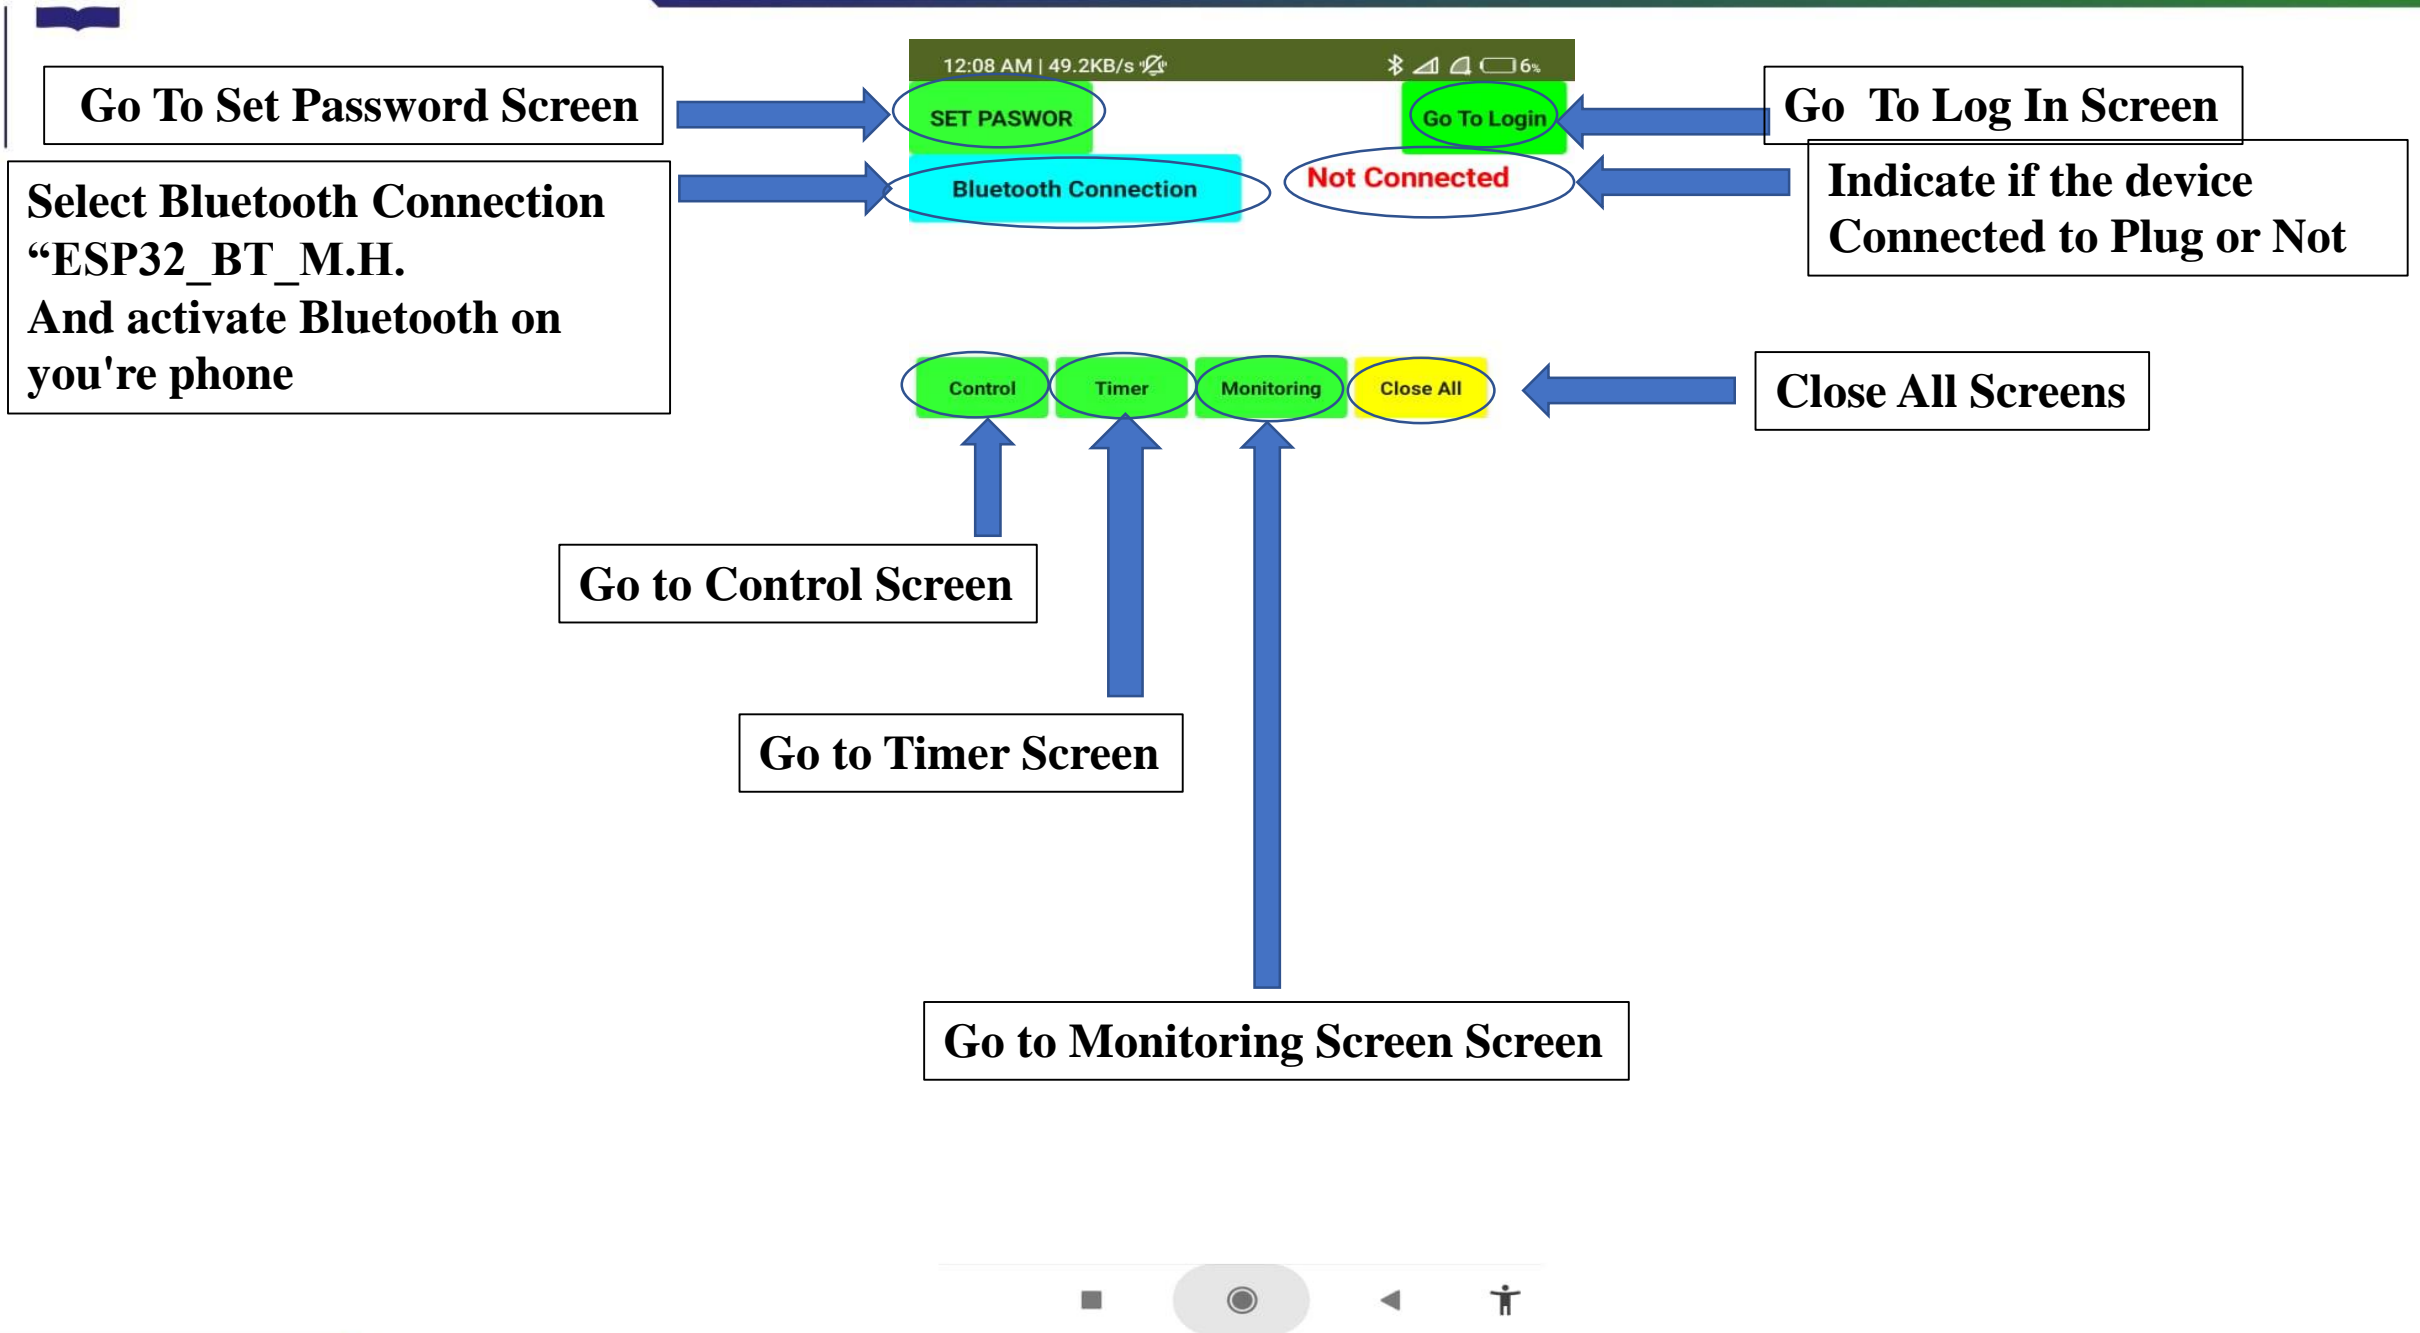

Insert user in Password label

Press LOG IN

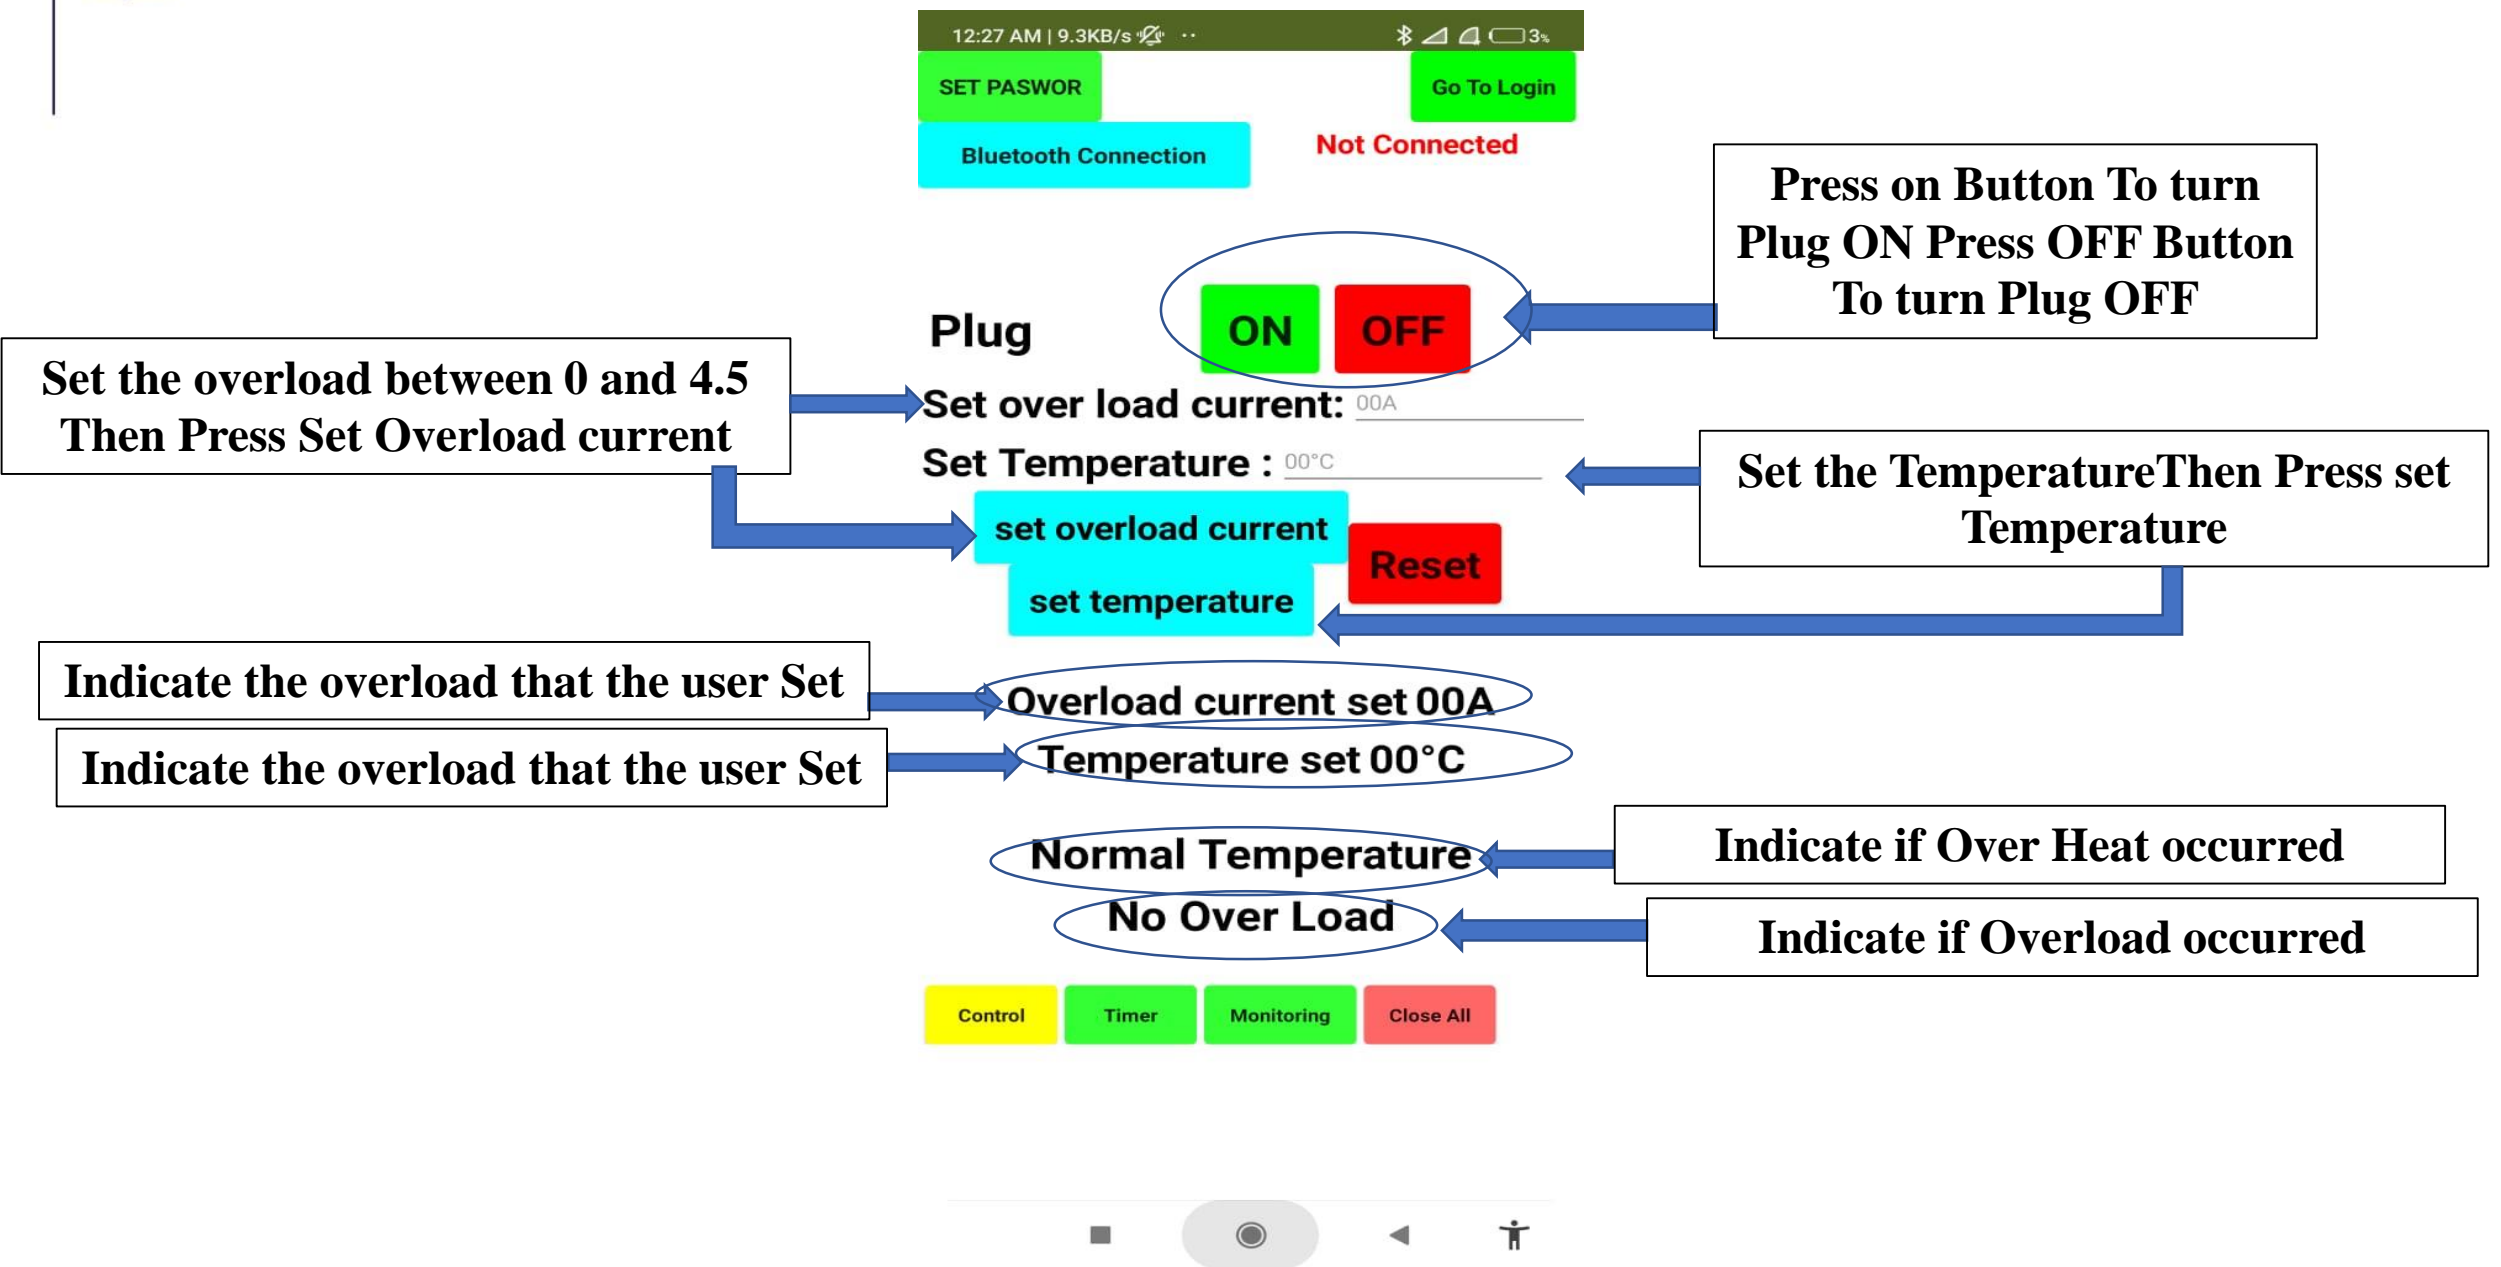

At first time open the app

The image shows a mobile application interface for a "Smart Plug System". At the top, the status bar displays "12:23 AM | 3.1KB/s" and various icons. Below the title "Smart Plug System", there is a white box containing the word "Correct". The main form has two input fields: the first is labeled "user" and contains the text "user"; the second is a password field with four dots "...." and a green cursor. Below these fields is a red "LOG IN" button. A blue arrow points from the text "Insert user in Username label" to the first input field. Another blue arrow points from "Insert user in Password label" to the password field. A third blue arrow points from "Press LOG IN" to the "LOG IN" button. Below the form is a virtual keyboard with numbers, letters, and symbols. At the bottom of the screen are three navigation icons: a square, a circle, and a person icon.

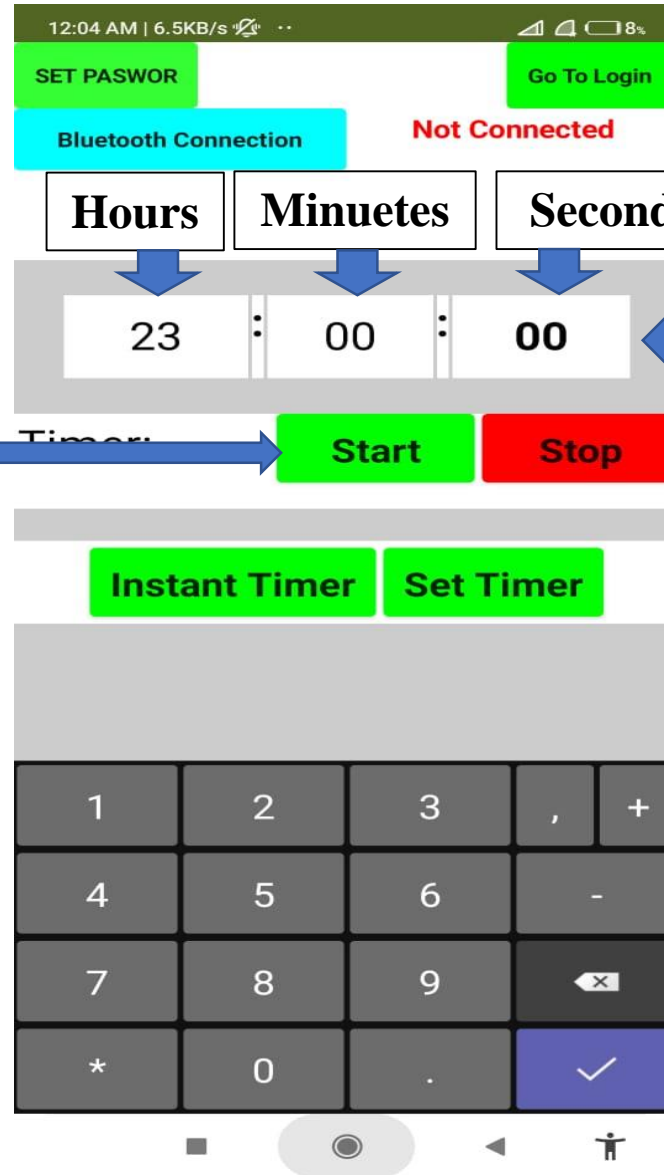

Second Screen

Contro Screen
